**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 10 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by International Application Publication WO 97/37595 Pedlick.

In response to claims 10 and 13-15 Pedlick discloses the same invention being an implant shown in figure 72 comprising a blunt proximal end, a tapered distal end adapted to receive a suture (500), a transverse eye, and a cylindrical shaft. The figure below is included in order to provide further clarification of the location of all the claimed elements. Pedlick also teaches use of channels formed on the opposite sides of the implant shown as the curved indentations around the eye to prevent binding of the sutures shown in figure 5.

FIG. 72

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 11 and 12 are rejected under 35 U.S.C. 103 as being unpatentable over Pedlick in view of United States Patent 6,045,554 Grooms et al.

Pedlick discloses the invention substantially as claimed being an implant described above. However, Pedlick does not disclose that the implant is made of allograft or a synthetic bone material.

Grooms teaches the use of an implant made of allograft or synthetic bone material (2:9-22) in the same field of endeavor for the purpose of providing an implant that is capable of fusing with the bone it is implanted into.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to combine the allograft or synthetic bone materials taught by Grooms with the implant of Pedlick in order to provide an implant that has strength comparable to a metallic version, and has the advantage of leaving no residual hardware while contributing to bone stock.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
